

## ABOUT

I am a dedicated and driven junior golfer with the goal of competing at the collegiate level as part of a strong, ambitious team. My game is built on consistency off the tee and solid iron play, allowing me to compete with confidence at a high level.

What defines me most is my mindset. I never give up on a round and continue to battle until the final hole. I bring that same determination to a team environment with a positive attitude on and off the course, always working to improve and contribute to the success of the team.
