

ABOUT

I am a junior golfer and high school student from Buenos Aires, Argentina, graduating in December 2026. The strengths of my game are my driving distance and accuracy, as well as my wedge play. My goal before beginning college golf in the United States is to continue developing every aspect of my game and compete as much as possible so I am fully prepared to make an immediate impact at the collegiate level. I also hope to contribute to my college team through leadership, strong work ethic, and a commitment to continuous improvement. I have high expectations for myself and the discipline and dedication necessary to achieve my goals.
